

# **SOUTHERN** LOCOMOTIVES LIMITED

## **34072 257 Squadron - sponsorship appeal**

Battle of Britain class locomotive 34072 257 *Squadron* was restored in the 1980's and ran on heritage lines from 1990 to 2002. Since then it has rested in our workshop awaiting a major overhaul.

That work has now started, and with your help it could be running again in 2015. The loco is complete, though it needs a new tender, and it needs to be completely dismantled and rebuilt in working order. The boiler repairs alone will cost around £150,000 and the total cost has been estimated at.....£257,257.

- 112 Small boiler tubes for £65 each
- White metal of each of six main bearings £150 each
- 32 Large flues £490 each
- All the paint £900
- Two new safety valves £1,200 each
- Assembly of three new wheelsets for the tender, £2,600 each
- Re-tyring of two driving wheels £5,000
- Plus many others – see website

Sponsors and donors will be offered special tickets for the launch train, footplate trips, etc. More details nearer the time, but rest assured that your generosity will be noted and rewarded.

Please complete this form and send it with a cheque made out to Southern Locomotives Ltd:

**Southern Locomotives Ltd, 16 Arcadia Road, Istead Rise, Meopham, Kent DA13 9EH**

I would like to sponsor 257 *Squadron*'s overhaul, or make a donation:

	Price Each	Number	Amount		Price	Amount
